DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-11 have been considered but are moot in view of the new ground(s) of rejection.

1. This application is in condition for allowance except for the following formal matters:

Applicant argues that the ridge (19E) is closer to the back face (15E) with increasing distance from the incidence (15A). Applicant further, refers the Examiner to page 9 (last full paragraph) for better emphases on the limitations cited above.

In response to Applicant's arguments, Examiner notices that reference Number (15E) stands for example, in figure 2, 15E is shown as a back face and in fig. 1, 15E is shown as ridge. It is ambiguous to know for what reference or object 15E stands for.

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "15E" has been used to designate both back face and ridge. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "ridge that gets closer to said back face with an increasing distance from said first end face" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
